The 17th Leading Agribusiness Event of the Year
21–23 қазан | October 21–23

Dear Participants & guests!

International Exhibition Company "Expo Group" invites you to take part in the 17th Kazakhstani International Agricultural Exhibitions "KazAgroFarm 2026"!

CROP FARMING:

Current Indicators (as of October 1, 2025)

The total area of agricultural land in Kazakhstan amounts to 223 million hectares, including 183 million hectares of pastures. The sown area in 2026 is projected to reach 29 million hectares.

Kazakhstan is the largest grain producer in Central Asia. In 2025, the country harvested over 25.9 million tons of grain, the area of oilseed crops exceeded 3.3 million hectares, and about 130 thousand hectares of agricultural land are used for vegetable production.

LIVESTOCK FARMING:

The livestock population in Kazakhstan includes 8.4 million head of cattle, over 22.8 million small ruminants, 4.2 million horses, and more than 46 million poultry.

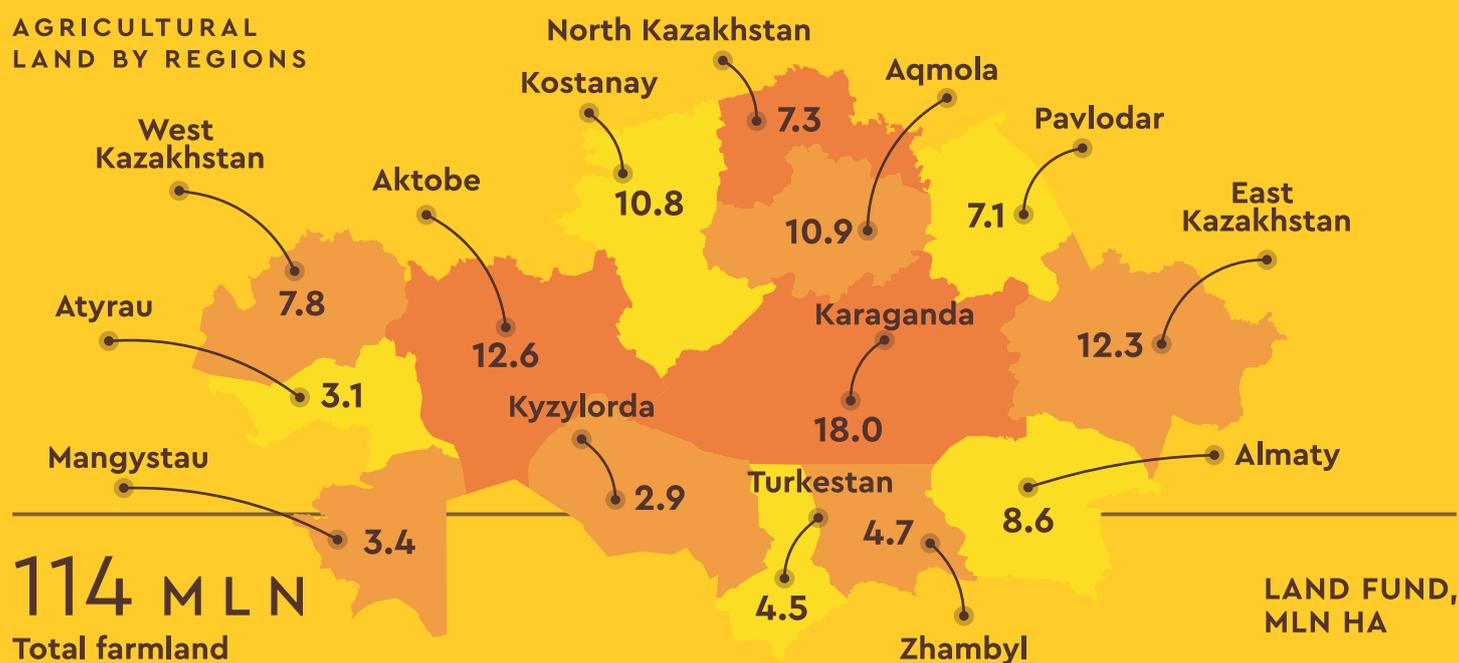

Kazakhstan places a strong emphasis on dairy production. Under the 2025 development program, the country operates around 70 modern dairy farms, with over 45 more currently under construction.

AGRICULTURAL EXPORTS

Kazakhstan actively exports agricultural products, including grain, meat, dairy products, and oilseeds. The main export markets are the CIS countries, China, Turkey, and the European Union.

In 2025, Kazakhstan continued to strengthen its agricultural exports — in the first half of the year, exports exceeded USD 3.2 billion, which is 38% higher than in the same period of the previous year.

AGRICULTURAL LAND BY REGIONS

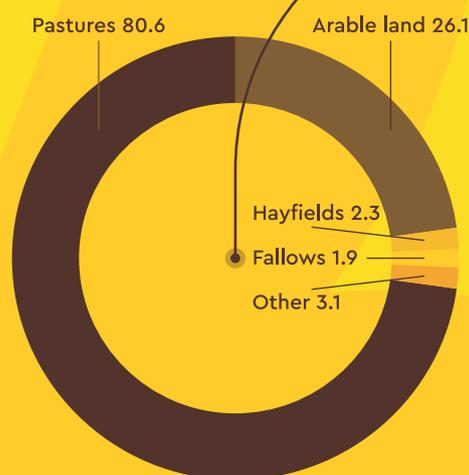

KazAgroFarm Expo is the largest agricultural exhibition in Central Asia, serving as a professional platform for presenting global innovations in the agricultural industry. The exhibition promotes dialogue between producers and consumers, introducing farmers, heads of agricultural enterprises, and organizations to the latest developments in the sector. Numerous thematic seminars and briefings are held within the framework of the exhibition, addressing a wide range of agricultural topics and industry challenges.

KazAgroFarm 2026 will feature companies operating across various agricultural sectors, with participants from all regions of Kazakhstan, as well as representatives of government bodies — including the Ministry of Agriculture headed by the Minister — and Kazakhstani and international companies.

Exhibition top themes:

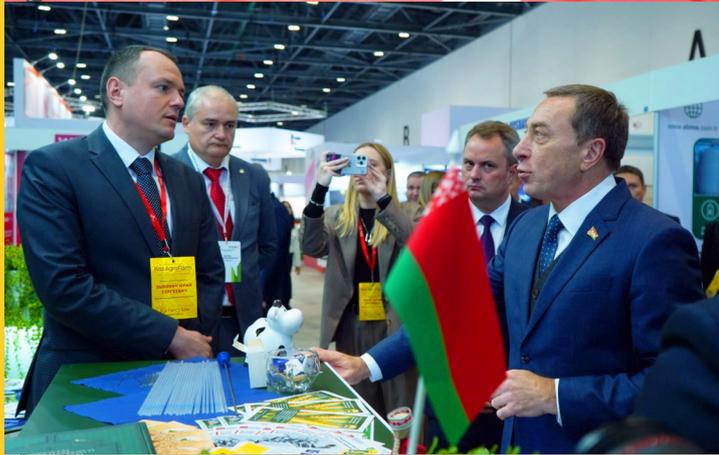

Settlements	24.3
Forest fund	22.4

Agricultural land	114.0
	43%

- Agricultural machinery, equipment and spare parts
- Livestock equipment and technologies
- Milling equipment
- Packaging equipment and materials
- Agricultural construction and storage facilities
- Mechanization tools for small farms and private holdings
- Feed and feed components
- Milking and cooling equipment
- Machinery for removal, storage, processing and utilization of livestock waste
- Horticulture, greenhouse technologies, ecological aspects of crop production, irrigation, and modern seed systems
- Equipment for the food and processing industries
- Harvesting and storage technologies
- Biotechnology and quality control of agricultural raw materials and products
- Agroecology
- Environmentally safe plant protection products, fertilizers, and application technologies
- Food products and halal-certified goods
- Seeds, seedlings, vegetables, and fruits
- Genetics and breeding in crop production
- Tobacco and tobacco products
- Food products
- Alcoholic and non-alcoholic beverages, juices, water, tea, coffee
- Food additives, ingredients, and raw materials
- Organic products and healthy nutrition
- Products for the HoReCa sector
- Equipment for food and beverage production
- Processing equipment for the food industry

"Benefits of participating in the KazAgroFarm exhibitions"

- Effective entry into the markets of Kazakhstan and neighboring countries
- Presentation of new achievements and promising company developments
- Providing detailed information about the enterprise to interested partners and suppliers
- Showcasing products and services
- High-quality professional visitor audience
- Stability and extensive experience of the organizer in holding agricultural exhibitions
- Access to valuable data on market trends and main competitors
- Establishing useful business contacts and partnerships
- Concluding deals and signing contracts
- Wide geography of visitors from all regions of the country
